Chip, I'm simply not interested in Facebook or dealing with it. There's nothing in my job description related to social media, so best I stick to my designated tasks which are enough.

Perhaps Sharon has ideas about involvement with social media?

Here you go! yes I do believe that people are still using Facebook. It's really popular! In any case here are the screenshots. Can we add this to our to do list? Thank you! I send you an email through the facebook as you can see. It might go to your junk mail and there will be a way to log in and update the link. If you need any help please let me know. Thank you!

Chip, my address is the legal address for PMTNM thus it appears wherever a legal address is required. I know nothing about Facebook rarely posting on my own site. Before you take on another task, suggest you check job description and verify tasks with the President. Do people still use Facebook as often as in the past?

Hi Jeanne! I'd like to begin promoting your Facebook page. Is your facebook account still active? I see that <https://www.facebook.com/PMTNM/> has figaro's email and a link to a website that is [pmtnm.net](https://www.pmtnm.net), not .org. But if it's ok I will use that mountain picture on the website, it is very beautiful. I would like to help create a process for regular posts, the last post is from 2020. Is that something you could log onto this week and update? Thanks, Chip
